

# THE TRUE STORY OF THE **3 LITTLE PIGS!**

**Grade Level(s):** Kindergarten - 1st Grade

**Subject:** Social Studies

**Florida Standards:** SS.1.A.2.5

**Objective:** Distinguish between historical fact and fiction using various materials.

**Materials:**

- The True Story of the 3 Little Pigs Book
- Crayons
- Pencils
- Worksheets
- Poster board, if desired

**Activity:**

The teacher and students will recall how the play ended after the audience voted. The teacher will ask which students agree with the audience and if any students disagree with the vote. The teacher will use this to ask the students to identify the facts and opinions in the story. The students will use the diagram to list the pigs' perspective, the wolf's perspective and the shared perspective. The students will then create a poster or flyer to promote their chosen side of the story. Students can be divided into two teams, one telling the pigs' version of the story and the other telling the wolf's version of the story. Each student's poster or flyer will show why they support their chosen character. The teacher will assist students in sharing their work and discussing the consequences of using opinions to make decisions. The teacher will facilitate the discussion emphasizing the difference between fact and opinion and asking questions to lead the students to acknowledge another's point of view. The teacher will direct the students to discuss the point of view of the character they did not choose to try to understand their experience or point of view,
